

# Pineapple Sorbet

Servings: 8 | Prep/cook time: 3 hours and 5 minutes

## Ingredients:

4 ½ cups frozen pineapple chunks  
1 tbsp. lime juice  
Honey (optional)

## Directions:

1. Place frozen pineapple into a food processor or blender and let thaw for about 15 minutes.
2. Blend/pulse pineapple until it becomes crumbly.
3. Add lime juice and pulse again. If the mixture is not looking smooth, allow pineapple to thaw a little bit more and blend again. Mixture should be smooth.
4. Taste. If not sweet enough, add a little bit of honey.
5. Enjoy immediately or refreeze if necessary.
